

Perspective & Floor Plan are artists impressions only

'The St Lucia'

Home Features

Living	243.80m ²
Porch	10.60m ²
Patio	19.40m ²
Total Floor Area	273.80m²
Total Pergola Areas	16.60m ²

Designer Notes:

This extremely functional home has amazing street appeal and has been designed to allow great flexibility with its room usage. Existing Dining can become a 5th Bedroom or Office, and the covered outdoor Patio area can be extended. With a Computer nook near the family living, any work can be done without being relegated to the back blocks! This is indeed a magnificent home we are very proud to offer.
