

Perspective & Floor Plan are artists impressions only

'The Byron'

Home Features

Living	222.50m ²
Portico	3.40m ²
Total Floor Area	- 225.90m²

Designer Notes:

This home was designed especially for a family so we have made great use of space and included many special features – storage shelves in the Theatre Room, a luxurious Ensuite, and a completely separate Home Office with natural light. The windows are placed to capture cross-breezes from every direction and the picture windows in the Living areas give a wonderful outlook to garden, outdoor areas and any view or sunshine you may like to take advantage of.
